PROJECTS

Developing You, June/July 2020 - github.com/Team-FIR3/developingyoureact

Final project for DeltaV 401 course. A behavioral modification app intended to offer the user an interactive experience toward the goal of self-improvement.

- Languages Used: C#, Javascript, JSX, SCSS, HTML5
- Tools Used: Github, Github Actions, Netlify, Azure, Trello, VSCode, VS Community, Postman, Git Bash/Ubuntu
- API's Used: We created our own API on Azure to manage user data
- Maintained and managed API and DB. Identified solutions when the team faced technical difficulties

The Happy Times, April 2020 - happy-time-news.herokuapp.com/

Final project for DeltaV 301 course. A news portal that filters out any COVID related news and returns either headlines from the Google News API or a cat gif in place of the COVID articles.

- Languages Used: HTML5, CSS, JavaScript, EJS, SQL
- Tools Used: Github, Heroku, Trello, VSCode, Nodemon, Postgres, Various Middleware, Git Bash/Ubuntu
- API's Used: Google News, Cats, http.cat
- Led the facilitation of functionality of accessing and rendering our APIs to our web page

resc-U-r, March 2020 - cnickels21.github.io/resc-u-r/

Final project for DeltaV 201 course. A pet adoption site that allows you to find a pet match based on your personality.

- Languages Used: HTML5, CSS, JavaScript
- Tools Used: Github, Github Projects, VSCode, Git Bash/Ubuntu
- Served as lead for integration of the dynamic features of user interaction

EXPERIENCE

The New Bohemian Innovation Collaborative | Teacher Assistant | August 2020 - Present

- Intentional focus on facilitating a friendly and productive environment for students
- Organized and productive approach to grading and feedback

The Snug | Bartender | May 2017 - October 2019

- Excelled at sustaining high quality and service levels and flows in a fast-paced, high-stress environment
- Recognized for the ability to apply conscious problem solving during challenging situations with clients
- Effectively managed multiple clients through CRM

Dalou's Woodfire Bistro | Chef | August 2014 - January 2018

- High focus on ensuring proper quality and culture; continuously enhanced food preparation and production
- Leveraged attention to detail skills to create artisan Italian cuisine efficiently, within a compact time limit

Oakwood Hills Retirement Home | Cook | October 2013 - May 2014

- Initiated time and resource management techniques to prioritize and ensure the success of multiple tasks simultaneously
- Efficiently prepared multi-course meals for a large group of people
- Focused on meeting the specific needs of those I was catering to by tailoring products to needs
