Software Developer

North Liberty, IA | stacey.teltser@gmail.com | 301.639.8264
[linkedin.com/in/stacey-teltser](https://www.linkedin.com/in/stacey-teltser) | github.com/selmaT273

Full-stack software developer with a background in psychology and accessibility seeking to apply technical abilities and customer focus in a collaborative, high performing environment.

Technical Skills

Languages and Technologies: JavaScript, ReactJS, C#, .NET, ASP.NET, CSS, HTML5, Node.js, Express.js, PostgreSQL, Microsoft SQL Server, xUnit, Jest, Regular Expressions (Regex), jQuery, Sass

Tools: Git, GitHub, Visual Studio, VS Code, Agile, Heroku, Docker, Azure, Netlify, Postman

Recent Projects

Developing You | github.com/selmaT273/developingyoureact

- Created a guided behavioral modification app designed to make achieving personal goals more attainable for authenticated users using ReactJS.
- Built out several API capabilities using .NET Core such as the ability to isolate and return a goal by its id, return a log of instances for a goal, as well as create, update, and delete a goal.

Happy Time News | github.com/news-meow/happy-time-news

- Created a web-based satirical news app with a mobile-first design that censors COVID-19 related news articles by replacing them with cat GIFs utilizing several third-party APIs.
- Constructed the back-end server using Node.js and utilized Express.js to render SQL query results on the front-end.

Experience

Sorenson VRS | Video Relay Interpreter | Davenport, IA | April 2018 - December 2019

- Met accessibility needs using telecommunication software for inbound and outbound customer requests.
- Collaborated with colleagues to provide team support during high-priority requests.

Hands Up Communications | Interpreter | Cedar Rapids, IA | September 2016 - December 2019

- Provided technical translation and interpretation for post-secondary software development courses primarily focused on the MERN stack.
- Increased the organization's network of available contractors by gathering necessary data and composing it in a way that identified pools of untapped labor.

Community Hands | Support Specialist | Cedar Rapids, IA | June 2015 - September 2016

- Improved accessibility by advocating and educating organizations on making their internal processes more accessible.
- Maintained compliance with funding streams by completing thorough documentation of services that were provided.
